*Enriching Parents & Students with Science, Technology, Engineering and Math Experiences.*

## Answers to March Family Math Challenge

The Parent Involvement Program, Inc., PIP, is an all volunteer, 501(c)3, nonprofit organization whose mission is to develop, execute and fund experiences in Science, Technology, Engineering & Math for families in our community. Volunteer parents work with the school staff, community resources, the business community and outside funding sources to bring these programs to life.

The monthly Family Math Challenge is a two part puzzle that encourages families to work together for the solutions. The first part, "Guess the Profession", describes a profession using math, science and technology. The second part of the puzzle is a fun math problem that will use concepts taught in the classroom.

Each month, one student from each of the 6 elementary schools will win a gift certificate to a local business as well as win a gift for their teacher.

**Don't forget: Racing for Robotics, PIP fundraiser @ F1  
Boston, April 9, 2010.**

Parents interested in volunteering for PIP email [BraintreePIP@aol.com](mailto:BraintreePIP@aol.com) , call 781-843-2454, or visit our website [www.parentinvolvementprogram.org](http://www.parentinvolvementprogram.org) .
